We are presenting this petition to you to express our strong opposition to proposed changes in FCC rules allowing further deregulation and consolidation of mainstream media. The airways are supposed to belong to the public, yet, to our knowledge, the FCC has held only one public hearing on the matter, with disturbingly scant media coverage: A recent Pew Research Council study showed that 72% of Americans had never even heard about possible changes in the rules. We call upon you to hold well-publicized additional public hearings and to postpone the vote scheduled on June 2, 2003, until there has been adequate debate among lawmakers and the public on the far-reaching consequences of media consolidation. We believe that as commission chairman you have this obligation to the American people.
